ABOUT US:

Salem Ahmed Al-Haider Est. is a construction company established in (1426 hijri) and started their journey of success and achievements.

We are specialized in all the construction and finishing works starting from construction Industrial and commercial buildings, equipment's, water retaining structure, retaining wall and wank foundation, road and Parking area Works, fabrication of building structures, platforms, ladders, supporting structures, excavation, leveling, surveying, backfilling, construction of concrete paving and structures, and much more.

Throughout 10 years of hard working, We have proven our large experience in a wide range of project types and sizes across (Egypt | KSA |) and have mastered difficult tasks through extraordinary performance.

Our passion always compels us to work as a team and to support each other at all times, Most importantly, always be proactive in finding solutions for our clients and achieve their goals in a professional way.

Quote: "Self-belief and hard work will always earn you success."

MISSION:

- Making the construction industry the safest and conducting business with innovation, integrity, and professional performance.
- Our employees are our main assets that's why we'll always promote and utilize the strengths of each individual employee.
- Always putting advanced thinking and action into our consideration to create new ideas and maintain comprehensive knowledge that will keep us and our customers continuously heading in the right direction.

VISION:

to be a leader in providing value-added construction services to our customers at fair and market competitive prices and be the premier construction company in the Middle East.

OUR STRATEGY:

- Everyone at Salem Ahmed Al-Haider Est has a real passion for our standards and goals. We want to create a safe environment where employees can feel our values such as integrity, ownership, responsibility, and safety in their work, Moreover, vigilant in identifying potential concerns, and confident about speaking up in such situations.

- At Salem Ahmed Al-Haider Est., All of us are one big family that has one main purpose, „Creating our own future and success that we can be proud of”.

We promise to utilize all of our ability, knowledge, and experience to not only compete but to go further and surpass the best of our competitors.

- We are proudly able to distinguish ourselves from our competitors as we're always focusing on quality, safety, and on-time performance!

Moreover, Our passion for construction forces us to work as a team and to support each other at all times.

WHY US:

- limited time frame of project
- Creative and diversified solutions
- Safety
- Experienced Engineers and Highly-motivated experts.

LINES ON CONSTRUCTION VISUALS PROJECTS:

- Our business is based on trust.
- Practice and expect safe behavior everywhere, and every day.
- Sky's our limit.
- experience the pleasure of building.
- We provide the infrastructure for the future.
- We shape our buildings, thereafter they shape us! (Quote)
- A good scientist is a person with original ideas. A good engineer is a person who makes a design that works with as few original ideas as possible. (Quote)
- Experience the joy of construction with us.

SAUDI VISION 2030 IS THE SOUL OF SALEM AHMED AL HAIDER EST. FOR CONTRACTING ACHIEVING ENVIRONMENTAL SUSTAINABILITY

By preserving environment and natural resources.
we fulfill our Islamic, human and moral duties.

Preservation is also our responsibility to future generations
and essential to the quality of our daily lives.

We will seek to safeguard our environment by increasing
the efficiency of waste management, establishing com-
prehensive recycling projects, reducing all types of pollu-
tion and fighting desertification.

We will also promote the optimal use of our water resources
by reducing consumption and utilizing treated and rene-
wable water. We will direct our efforts towards protecting
and rehabilitating our beautiful beaches, natural reserves
and islands. making them open to everyone. We will seek
the participation of the private sector and government
funds in these efforts.

STORM WATER (DRAINAGE) SYSTEM CONSTRUCTION

STORMWATER STANDARDS FOR NEW CONSTRUCTION OR REDEVELOPMENT

Construction projects that are large enough to require Planning Board Review are regulated by the City's Zoning By-Law and Subdivision Rules and Regulations (PDF). The following are the categories of such projects:

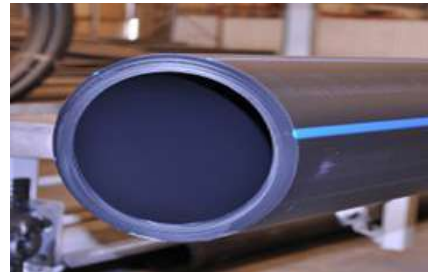

1. All commercial, industrial, and manufacturing sites;
2. Housing development and redevelopment projects comprised of detached single-family dwellings on five or greater lots;
3. Multi-family housing development and redevelopment projects with five or more units, including condominiums, cooperatives, apartment buildings and townhouses; and
4. Any housing development and redevelopment projects where

Anyone wishing to perform work within 125 feet of a wetland or 200 feet of a perennial stream, is required by law (State - M.G.L c. 131 §40 and City Bylaw - Article V Section 18) to file an application called a "Notice of Intent" or "Request for Determination of Applicability" with the Conservation Commission.

STORMWATER MANAGEMENT PLAN REVIEW & COMPONENTS

Public Works works directly with the Planning Board and the Conservation Commission to review the storm water management plans, ensure compliance with Framingham's design and construction standards, and to provide consistent direction and oversight on such projects. The two major components of the plans are the design of the drainage system and the construction erosion and sediment control plan.

S P S MAIN PRODUCTS
